

KORRVU PACKAGING

Korrvu® packaging is a dynamic product that uses a strong, highly-resilient low-slip film to surround your products, suspending it for protection from shock and vibration. A complete packaging solution that holds your product securely in place.

Attractive: Transparent film enables your package to serve as a protective shipper and an effective display merchandiser.

Versatile and Flexible: Resilient film conforms to a variety of shapes, reducing your packaging inventory.
Easy to Store: Stores flat, reducing space requirements.
Environmentally Sound: Contains at least 30% recycled content and is recyclable. Korrvu® packaging is reusable for return shipments minimizing waste at both ends of the distribution cycle.

WHAT DO CUSTOMERS THINK OF GO PET™

"These have proven in our operation to both save time and shoe leather with an approximate 3/4 km of main walkway to cover at least ten times a day. This means payback in six months by saved time. The four units we use daily require minimal maintenance and have proved worth the cost."

Bill Sr., Oyen Greenhouses Ltd.

LABEL GRAPHICS™
 A DIVISION OF SHIPPERS SUPPLY INC.

Our LABELGRAPHICS™ division transforms bright ideas into creative and eye-catching labels.

Use high-impact labels to enhance your product in today's competitive marketplace.

Updating your label or introducing a new product that requires concept and design?

LABELGRAPHICS™ will provide solutions for any of your concerns and needs in custom labels or printed tape.

Your needs are handled with professional expediency, quality, and satisfaction!

LABELS FOR EVERY OCCASION AND APPLICATION

- Anniversaries
